The Board of Governors is asked to review the proposed dates on the attached schedule for any major conflicts in order to establish firm meeting dates for year beginning July 1, 2008. Additional meeting dates have been built into this calendar to allow for the discussion of any unforeseen issues that may require the Board's attention during the year. One or two meetings may be cancelled in advance of the scheduled date if there is no urgent business to transact. A quorum of seven voting members is required to be present for the Board to officially take action on any item.

A motion to adopt the meeting schedule was made by Roseanna Keller and seconded by Mike Turrentine; motion passed unanimously.

## 7. Approval of Non-Classified Positions\*:

The creation of non-classified employee positions is necessary to service needs in Institutional Research and Assessment and the Media Arts Center and will be titled as "Coordinator of Institutional Research and Assessment" and "Director of Media Production."

Dr. McCullough asked for the Board's approval for two Classified Positions to be moved to Non-Classified. He informed the Board that the College is well below the 20% ratio of non-classified to classified staff. In fact, approximately eight more non-classified positions could be added if necessary. In addition, three new Classified Staff positions have been added to the Maintenance staff.

Beverly Burke asked for clarification as to why some non-classified positions require Board approval while others do not. Dr. McCullough explained that some new non-classified positions do not require Board approval. However, existing classified staff positions that are changed to non-classified do require the approval of the Board. Additional questions were asked concerning positions considered "critical," but these are to be addressed at the next Board of Governors and Brian Warmuth will provide the explanation.

A motion to approve the non-classified positions was made by Larry Miller and seconded by Jim Compston; motion passed unanimously.

## 8. Organizational Chart\*:

A motion to approve the Organizational Chart was made by Brian Joseph and seconded by Roseanna Keller; motion passed unanimously.

#### BOARD OF GOVERNOR'S ENROLLMENT SERVICES REPORT

The fall 2008 enrollment headcount continues to run ahead of last year's number. Our headcount as of Monday, August 18, is 2282. We are expecting an increase in enrollment for the third straight year. Our freshman class will be one of the largest we have ever had.

We will be offering approximately 50% more scholarships to new students entering in the fall of 2009. We will continue to market new scholarship programs to entering freshman and transfer students throughout the 2008-09 academic year.

Testing will begin in the fall semester on the Banner CAPP Module. The Banner CAPP module is an on-line degree audit system for students and advisors. Once operational, this will allow our students and faculty advisors to go on-line and receive a print-out of courses and requirements needed to complete graduation requirements.

As required by the HEPC, the 2007-08 Undergraduate Tuition and Fee Waiver Report is required to be submitted to the Board of Governors. It is submitted as part of this report.

## Division of Student Affairs August 2008 Report to the Board of Governors J.D. Carpenter, Ed.D., Vice President for Student Affairs

• As of August 18, 2008, there were 1231 paid deposits on file (468 freshmen, 82 transfers, and 681 returning students). We have been running consistently around 100 students ahead all summer. History would tell us to expect approximately 30-35 students to cancel by the time classes start. That would mean an opening population of approximately 1200 students (an 8.25% increase over the 2007 opening population of 1101).

## **Projected Fall Housing Occupancy**

- The first "Hilltopper Academy" was held July 27th August 1st. This was a weeklong program funded by a grant from the West Virginia Higher Education Policy Commission. These students were determined to be at higher risk, so the purpose of the program was to provide supplemental support and academic enrichment prior to the beginning of the school year. Out of 90 invitations sent, 40 students accepted and 32 actually participated. Assessments completed by the students indicate a successful program. Continued assessments will take the form of academic and retention tracking for this cohort.
- The data from the 2008 National Survey for Student Engagement was received by the College last week. This is the second year that West Liberty has participated in this program, so comparative data is now available. The goal will

be to prepare a presentation of the data to share with interested parties over a series of noon-time presentations. West Liberty can compare data to other NSSE institutions in West Virginia, the peer group assigned by the Policy Commission (the 9 institutions who also completed the NSSE), and a group consisting of our basic 2005 Carnegie Class. Preliminary indications are that the results are positive.

- Staff from the ROTC Program at the University of Pittsburgh spent the summer addressing groups of first-year students in orientation and did a direct mail to the rising sophomore class. As a result, there was strong interest from an initial group of 10 students who were in the process of trying to enroll in the program. That's a good indicator that the program may take hold in the next several years.
- In an effort to perform some environmental scanning, we took a vanload of student leaders on a 3-day idea-gathering tour that included 15 colleges and universities in New York and Pennsylvania. We were specifically looking at student unions and recreation centers, but also gathered ideas on programs, orientation, intramurals, and the like.
- Student Affairs submitted two additional grant proposals for programming funds to the Higher Education Policy Commission two weeks ago. One was for additional funding to expand the "Hilltopper Academy" for the summer of 2009 and the other was to enhance the on-campus tutoring program.
- Project START is gearing up for its fifth year as one of the campus tools in the retention arsenal. This fall, 80 faculty and staff with serve as mentors to over 500 incoming first-year students. This program is another way that students are able to "engage" with West Liberty and help transition to campus. Many MANY thanks to these faculty and staff who are willing to go above and beyond and participate in this program.
- Listen to the bells! Just as an FYI, the project to get the bells tolling on campus
  and to get the clock telling the correct time is complete! That was one of the
  original missives that came from the Student Union Committee.
- Writing for the TRIO/SSS grant is underway. We are reviewing some early materials submitted by our grant-writer and will continue to develop that for submission late in the fall semester. Again, that is approximately a 1.2 million dollar grant over five years dedicated to assisting at-risk students.

## Office of Development Report

The development staff has created a Challenge grant effort in order to stimulate alumni and friends into contributing to West Liberty State College during FY09. This Challenge grant program is predicated on one or more individuals committing to offer the challenge. It would require \$50,000 for the first phase of the challenge and another \$50,000 should the college secure 500 new donors. This Challenge will provide a dramatic incentive to all giving programs for FY09.

The Board of Governors is asked to authorize a 30-day period during which campus constituencies (faculty, staff, and students) may review and comment on a new Board policy entitled "Policy on Policies". If approved for final adoption, this policy will replace Policy #23 entitled "Protocol for Submitting or Revising Policy" which pertains to *college* policies, not to Board policies. A policy is needed prescribing a means by which the Board (through its chair) and/or the president may create new *Board* policies and change or repeal existing *Board* policies.

Proposed Resolution: *Resolved,* that the West Liberty State College Board of Governors approves the dissemination of the new Policy on Policies to constituent groups for review and comment.

Series 4

Filing Date: August 27, 2008

Effective Date:

## Section 2. New Policies or Revisions.

The Board of Governors (through its chair) and/or the President may propose new policies or policy revisions. Notice of such intent shall be presented as an informational item during a Board meeting. At a subsequent Board meeting, a draft of the new policy or revision shall be presented and made available for a comment period of 30 days. During such period the draft shall be posted on the institution's website and made available in hardcopy at the Elbin Library. It shall be provided directly to those persons representing students, faculty, and classified staff. Also, the draft shall be submitted for comment to the Chancellor of the Higher Education Policy Commission. Comments shall be directed to the Office of the President. Comments from students, faculty, and classified staff shall be received by their representatives and then transmitted in summary form to the Office of the President.

Following the 30-day comment period, all comments shall be made available to Board members and to the President. The Board's designee or the President's designee (depending upon who proposed the new policy or revision) may make changes to the draft. A final draft then shall be sent to all Board members along with a summary of comments received and an explanation of any changes made. The Board's executive committee may delegate, in writing, authority to the President to adopt the new policy or revision. In the alternative, the executive committee shall make a recommendation to the Board regarding adoption, and the full Board shall vote on a resolution adopting the new policy or policy revision. If adopted, the new policy or policy revision shall be forwarded to the Chancellor. Absent objection by the Chancellor within 30 days, the new policy or policy revision shall be deemed approved.

## Section 3. Repealing a Policy.

The Board of Governors (through its chair) and/or the President may propose repeal of a Board policy by providing reasons therefore and by giving notice, soliciting comments, etc. as outlined above.

## Section 4. Other Changes.

Changes that do not materially affect the meaning of a policy (changes that are non-substantive, editorial, or related to format, grammar, punctuation, etc.) may be made anytime at the direction of the President. Such changes shall require the review

and approval of the Board's executive committee and shall be noted thereafter as an information item at a Board meeting.

## Section 5. Emergency Circumstances.

In case of emergency, the Board may adopt, revise, or repeal a policy without first following the steps described herein. An emergency shall exist when Board action is necessary for the immediate preservation of public peace, health, safety, or welfare, or is necessary to comply with a time limitation established by state or federal law or regulation or a directive of the Higher Education Policy Commission or legislature, or is necessary to prevent substantial harm to the public interest, or to deal with financial exigency. The fact constituting an emergency shall be communicated in writing in advance to the Chancellor.

Any Board action so undertaken shall remain in effect no longer than three (3) months and shall expire unless the Board has completed final approval under the normal process set for in this policy.

## Section 6. Record Keeping.

It shall be the responsibility of the Director of Human Resources to maintain a "Master Copy" of all Board policies and to ensure that all policies are posted on the institution's official website.

## WEST LIBERTY STATE COLLEGE STRATEGIC FOCUSING INITIATIVE

## The Role of Strategic Focusing in Higher Education Planning in West Virginia

The development of a Strategic Statement through the Strategic Focusing Initiative at West Liberty State College is an institution-specific effort in which West Liberty State College shall seek distinction and distinctiveness within its charge as a public institution of higher education in West Virginia.

## Statewide Master Plan

In regard to this charge, West Virginia Code §18B-1B-9 requires the Higher Education Policy Commission of West Virginia to develop a Statewide Master Plan that seeks to meet the general goals for higher education established by the Legislature and set forth in West Virginia Code §18B-1-1a. These general goals include:

- 1. Focus on education as a lifelong process that is seamless at all levels and encourages all citizens to increase their knowledge and skills;
- 2. Produce a number of degrees per capita by West Virginia institutions of higher education that equals the national average;
- 3. Provide all West Virginians with access to post-secondary educational opportunities that is relevant and affordable;
- 4. Prepare students to practice good citizenship and compete in the global economy which requires an advanced level of education and skill that surpasses the previous requirements:
- 5. Exceed peer institutions in other states in measures of productivity and administrative efficiency;
- 6. Enhance efforts to diversify and expand the economy of the state;
- 7. Compensate faculty and administrators at a level competitive with peer institutions in order to attract and keep quality personnel at state institutions of higher learning; and
- 8. Maintain tuition and fees for in-state students that are competitive with peer institutions and for out-of-state students that are at a level which at least covers the full cost of instruction.

In 2007, the Higher Education Policy Commission approved "Charting the Future," a master plan for higher education in West Virginia. This plan embodies these goals through a structure that includes five planning areas: (1) economic growth; (2) access; (3) cost and affordability; (4) learning and accountability; and (5) innovation.

Each of these planning areas includes a series of recommendations that serve as a set of specific goals and a number of strategies that would assist in achieving those goals.

## **Institutional Compact**

West Virginia Code §18B-1A-2 requires each institution of higher education in West Virginia to enter into a performance agreement with the Higher Education Policy Commission regarding their use of state resources to achieve the general goals set forth in West Virginia Code §18B-1-1a.

This institutional compact sets forth the step-by-step process the institution will employ to achieve these goals and includes objectives and benchmarks to measure progress.

## Institutional Master Plan

West Virginia Code §18B-2A-4(a)(2) requires each institutional Board of Governors to adopt an institutional master plan that demonstrates in detail the means in which the institution intends to meet the goals and objectives of the institutional compact. Further, the Code requires the plan to set goals outlining the institution's:

- Missions
- Degree offerings
- Resource requirements
- Physical plant needs
- Personnel needs
- Enrollment levels
- Other "planning determinants and projections" to assure a "quality system of higher education."

The plan must also detail the involvement of institutional constituency groups such as faculty, students and staff; "clientele" of the institution; and the "general public."

The institutional master plan must be established for a period of three to six years and may be revised as necessary.

## Campus Development Plan

C.S.R. 133, Series 12, §3.1 requires each institutional Board of Governors to develop and implement a campus development plan that establishes the institution's physical plant needs in relationship to the statewide master plan and its institutional compact, institutional master plan and institutional mission.

An institution's campus development plan forms the basis for institutional recommendations and capital improvement requests. The plan must be updated at least every ten years with a progress report filed every five years.

## Five-Year Capital Implementation Plan

Based upon approved campus development plan, C.S.R. 133, Series 12, §3.2 requires the Board of Governors to develop and implement a five-year capital implementation plan that Identifies projects to be undertaken during the five-year period. This plan serves as a basis for institutional funding by the Higher Education Policy Commission.

An institution may revise its campus development plan by submitting revisions to the HEPC for approval. A second update of the five-year plan that reflects the second part of the campus development plan must be submitted to the Commission for approval.

## Annual Capital Budget Plan

As a part of an institution's annual budget, C.S.R. 1333, Series 12, §3.2.2 requires the Board of Governors to list projects that are consistent with the approved campus development plan and the five-year implementation plan.

## Strategic Statement

The Statewide Master Plan contains five planning areas with 33 recommendations or goals and 100 strategies for achieving those goals. As a public institution of higher education in West Virginia, West Liberty State College is committed to fulfilling its duties and responsibilities to pursue the public policy goals established by Higher Education Policy Commission and approved by the people of West Virginia through their elected representatives in the Legislature and the Governor.

While our institutional master plan and campus development plan provide West Liberty State College a method to fulfill its obligations as a public institution, the role of the Strategic Statement is to set forth in a clear and concise manner a strategic platform from which we shall seek *distinction* and *distinctiveness* in two specific areas: the total student learning experience and our academic "pillars of distinction."

In an increasingly competitive academic environment, the key to sustainability lies in our ability to achieve distinction and distinctiveness by demonstrating (1) our competitiveness with our peer institutions and (2) our ability to achieve remarkable results based upon our size and our commitment.

In particular, our Strategic Platform shall serve as our philosophical foundation and include our institutional *mission*; the enduring *values* we embody as an institution of higher education and a campus community; and our shared vision for the future of West Liberty State College.

As a student-centered institution, our Strategic Statement will identify and prioritize those special attributes or features of the total student learning experience for which West Liberty State College seeks to be known, admired and valued. The "total student learning experience" includes those experiences shared in common by all students regardless of their major.

Moreover, the competitiveness of today's academic environment also requires that our Strategic Statement identify and prioritize academic programs, program clusters or program themes ("Pillars of Distinction") that are best positioned to enhance the college's visibility, academic reputation and competitiveness.

The planning documents that reflect our commitment as a public institution are intended to serve as a guide for administrators in preparing and executing their duties and responsibilities. Traditionally, the detail contained within the documents and the style employed in presenting the plan's contents do not lend themselves to easy consumption by all campus constituencies or the public, in general.

In contrast, the purpose of the Strategic Statement is to provide all members of every campus constituency and the public, at large, with a simple, clear and concise declaration of:

- Our mission;
- Our core values;
- Our vision for the future;
- The specific areas of our total student learning experience for which we seek to be known, admired and valued; and
- The "Pillars of Distinction" that will enhance our visibility, academic reputation and competitiveness.

A clear and concise Strategic Statement that can be read, understood and embodied by all will provide the unity that is vital to our growth and our ability to fulfill our mission.
