How will LiveText **help me?**

LiveText lets you creatively demonstrate your learning, apply knowledge, and showcase achievements – effective for improving your learning and ensuring academic success – while providing your institution with direct evidence of learning to meet accreditation requirements.

Benefits

- **Receive unlimited academic file storage** on the cloud with LiveText. Store all work files in one central location, accessible 24/7, saving time and money.

- **Feel more engaged** in your learning and assessment. See the rubrics against which your work is evaluated. Receive immediate formative feedback and results from instructors so that you can prepare work that better meets target levels of performance.

- **Access the learning outcomes being assessed** at your institution and within your program or courses. See your academic progress towards achieving those outcomes.

- **Track growth over time** and refer back to your previous work…something you cannot do in learning management systems. Review your work from the beginning of your program through graduation and prepare multiple, custom e-Portfolios for employment and internship searches.
